I think it is very necessary that the President of the District Board and the Bypath Commissioners should meet & draw up a programme ~~of Building~~ for the sinking of drinking water-wells in villages in this District. At present the two (when there is a non-official President) are working independently & sometimes at cross purposes the result being that villages which could have been supplied with wells have to go without them.

Order Thereon No. :— L 8367-76 dt 16/5/30

In the Go read above the Dy Commrs of Districts were requested to supply the Presidents of DBBs with a full statement of their incomplete works and to fix the programme of well works in

consultation with the Presidents of DBds after an examination of the resources available with both.
It has come to the notice of Govt that at present the Dy Commr and the President of the DBd (when there is a non-official Pres^t) are not always aware of what is being done by each other and that the lack of such knowledge often leads to their working at cross purposes. The result is that villages which could have been supplied with wells have had to go without them. As there will be a non-official Presidents for all Dishict Boards, it is necessary that steps should be taken to ensure that the President and the Dy Commr work in close cooperation in future. Govt therefore direct that the Presidents of DBds and Dy Commrs should hereafter meet once a year and draw up a programme for the sinking of drinking water wells in villages in their dishicts during the year. They should also see that the wells are taken up in a given order and as many wells as possible are completed within the year alone, so that each village may have a well in a fixed period.

Drinking Water Well Works.

Issues instructions in regard to the completion of the ——.

READ—

Government Order No. L. 8923-40—V. P. 10-27-49, dated 21st June 1928, issuing instructions in regard to the completion of works to be undertaken from the Drinking Water Wells Fund.

ORDER NO. L. 8367-76—V. P. 26-29-13, DATED 16TH MAY 1930.

In the Government Order read above, the Deputy Commissioners of Districts were requested to supply the Presidents of District Boards with a full statement of their incomplete works and to fix the programme of well works in consultation with the Presidents of District Boards after an examination of the resources available with both. It has come to the notice of Government that at present the Deputy Commissioner and the President of the District Board (when there is a non-official President) are not always aware of what is being done by each other and that the lack of such knowledge often leads to their working at cross purposes. The result is that villages which could have been supplied with wells have had to go without them. As there will be non-official Presidents for all District Boards from their next reconstitution, it is necessary that steps should be taken to ensure that the President and the Deputy Commissioner work in close co-operation in future. Government therefore direct that the Presidents of District Boards and Deputy Commissioners should hereafter meet once a year and draw up a programme for the sinking of drinking water wells in villages in their Districts during the year. They should also see that the wells are taken up in a given order and as many wells as possible are completed within the year alone, so that each village may have a well in a fixed period.

R. RANGA RAO,
